ART OF SPECIFYING NATURAL STONE

Available

QUARRIES

Can the quarry produce adequate yield for the project?

AIA COURSE NUMBER: NSI44, 1 LU|HSW

IDCEC COURSE NUMBER: 104505-R2,
SUBJECT CODE: 6.1, 0.1 HSW CEU

LACES COURSE NUMBER: NSI13, 1.0 HSW

NKBA: 0.1 CEU

PROGRAM LENGTH: 60 MINUTES

CEU COURSE FOR ARCHITECTS & DESIGNERS

THE ART OF SPECIFYING NATURAL STONE

This one hour session is designed to give architects and designers an overview of how to specify natural stone. There are many factors to consider to ensure you are choosing the proper material for your project. What do you need to know about its species, color variations, and finish possibilities? Is the quarry able to produce the sizes and quantities you need? And finally, what factors affect the price of the stone you specify? Get the resources you need to help ensure the stone you choose meets the standards and design intent set for your application.

Learning objectives include:

- Discuss the responsibilities and liabilities of each pillar in the typical construction project.
- Review resources to find more information about natural stone standards.
- Learn how to plan for the longevity of an installation by specifying appropriate materials.
- Evaluate factors specific to the price of different materials, finishes and methods.
